

TOWN OF NORTH SALEM

New York

- F&A was retained to assist the Town with its update to the **Comprehensive Plan**. Tasks included assistance in organizational aspects of the Plan, facilitating Town visioning and technical discussions, field reconnaissance and review of pertinent documents. In the second phase of the project, F&A assisted in writing the Plan, prepared a GEIS including build-out and economic impact analysis, and advised the Town on technical aspects of the document. The Plan was unanimously adopted in 2011.

- In 2014, the firm also assisted the Town in preparing a **Parks and Recreation Master Plan**, last updated in 1994, that has established a blueprint for recreation programming town-wide. The Plan assessed existing resources and future recreation needs for the Town, to serve as a foundation for goals, objectives and recommendations that now serve as a guide for the acquisition, development, improvement and financing of recreational lands, facilities and programs. Additionally, the Plan presents a vision for the Town's acquisition and rehabilitation of a 20 acre section of the Mountain Lakes Park. The Plan was unanimously adopted by the Town Board.
